

Artists, please note that this form is being made especially for this project and as of now it is not finished – we are giving you the best information we have. The photo above of this antique jumper is what the mold of the rocking horse is being designed from. **Main Stay's form will not have the floral design – it will have the bridle, saddle, pad and breastplate on chest** – much like the form from last year's Horses of a Different Color project.

The exact dimensions are not locked in but the following are the best rough estimates - **The Rocking Horse on Toy Chest Base dimensions are as follows: 32" H X 44" L x 10" D on a 24" H x 46L x 12 D Base.**

We thank you for participating and are happy you have imaginations that can help ease any uncertainties about the form!
